ERISA Fee Disclosure for Qualified Retirement Plans

In accordance with new Department of Labor regulations under Section 408(b)(2) of ERISA, effective July 1, 2012, WI is required to provide certain information regarding our services and compensation to assist fiduciaries and plan sponsors of those retirement plans that are subject to the requirements of WI in assessing the reasonableness of their plan's contracts or arrangements with us, including the reasonableness of our compensation. This information (the services we provide as well as the fees) is provided to you at the outset of your relationship with us and is set forth in your advisory contract with us (including the Fee table, other exhibits and, as applicable, this document), and then at least annually to the extent that there are changes to any investment-related disclosures for services provided as a fiduciary under ERISA.

Unless agreed upon otherwise, you authorize us to deduct a quarterly fee calculated at the rate indicated in the Fee Schedule from your account. For the purposes of calculating program fees, "total account value" shall mean the sum of the long and short market value of all securities and mutual funds, if applicable. For mutual funds, we use the fund's most current net asset value, as computed by the fund company. In so doing, we will use information provided by quotation services believed to be reliable.

The initial fee is calculated as of the date that the account is accepted into the program and covers the remainder of the calendar quarter. Fees are based on the value of the assets in your Account, and WI shall not be compensated on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of your funds.

Whenever there are changes to the fee schedule, the schedule charges previously in effect shall continue until the next billing cycle.

Costs of Investing in Mutual Funds

In addition to program fees, as a shareholder of a money market, mutual fund or closed-end fund, you will bear a proportionate share of the fund's expenses, including investment management fees that are paid to the fund's investment adviser. WI may receive fees from these mutual funds or closed-end funds. For more information about these funds, refer to their prospectuses.

Account Termination

Your account agreements may be terminated by either party at any time upon 30 days' advance written notice. If you terminate your Agreement, a pro rata refund will be made, less reasonable start-up costs. You have the right, within five (5) days of execution, to terminate the Client Agreement without penalty. Unless otherwise agreed upon by the Adviser, the client's written confirmation that it wishes to withdraw all assets from the plan shall be considered a written notice of termination of the Client Agreement by the client. In the event of cancellation of Client Agreements, fees previously paid pursuant to the fee schedule will be refunded on a pro rata basis, as of the date notice of such cancellation is received by the non-canceling party, less reasonable start-up costs.

Item 5 – Account Requirements and Types of Clients

WI offers its services under this brochure to qualified plan providers and sponsors.

Item 6 – Portfolio Manager Selection and Evaluation

Portfolio Manager Selection

The investment policy guidelines of the plan are used to select Investment Managers based on a number of factors including overall level of experience and track record. Each Account is subject to periodic review for adherence to the investment objective and risk tolerance of the client. The investment returns, as compared with appropriate market benchmarks, are also periodically reviewed.

Evaluation

No less frequently than quarterly, you will be provided with an Account statement from the custodian reflecting any and all Account activity, including purchases and sales of securities. The Adviser will also provide you with a periodic review of the investment performance of your Account. The Adviser will discuss that review with you as deemed necessary in each case, provide answers to any questions, and discuss other factors deemed appropriate. The review will include an evaluation of Account activity and performance for the most recent quarter and the current year. This evaluation will include a measurement of, among other things, net investment earnings, Account additions and withdrawals, performance relative to one or more benchmarks, and asset allocation statistics. Performance reviews are prepared in accordance with industry standards.

Wells Fargo Advisors Investment Advisory Services

The WFA Programs consist of separately managed account (i.e., "wrap") programs provided to clients for an inclusive fee, a mutual fund asset allocation program and discretionary investment advisory services for an advisory fee with the client paying separately for brokerage. WI also offers discretionary investment advisory services with the client paying for brokerage.

In offering the WFA Programs, WI entered into an arrangement with Wells Fargo Advisors, LLC (“Wells Fargo Advisors”), an independent investment management firm and broker-dealer. Under the WFA Programs, (1) the Adviser and an investment adviser representative/Wintrust Investments LLC (“WI”) Financial Advisor (“Adviser Representative”) completes pertinent financial and demographic information regarding the client in order to develop an investment program that meets the client’s goals and objectives; (2) the Adviser Representative forwards the client’s information to Wells Fargo Advisors which analyzes such information and recommends an appropriate asset allocation and strategy, which may include use of various sub-managers and investment vehicles such as mutual funds, based on the client’s goals and objectives, investment time horizon, tolerance for risk and other factors deemed pertinent to the client’s individual situation; (3) for all Programs except Asset Advisor and CustomChoice, the sub-manager, Adviser Representative or the investment manager of the investment vehicle, as applicable, provides continuous investment management services on a discretionary basis with respect to the cash and securities in the client’s accounts under the WFA Programs (the “Accounts”); (4) Wells Fargo Advisors, the sub-manager or Adviser Representative, as applicable, through First Clearing, LLC (“First Clearing”), Wells Fargo Advisors’ affiliate and clearing firm, effects transactions in securities for the client’s Accounts; and (5) First Clearing maintains custody of the client’s assets under the Program. For the services offered under the WFA Programs (with the exception of Network), the client pays an all-inclusive fee out of which the Adviser pays itself, Wells Fargo Advisors, the sub-manager (as applicable) and First Clearing. In the case of Network, Wells Fargo Advisors may be compensated for its services either from a fee, which is payment for both the Network services and execution services, or through brokerage commissions. Network clients pay for the services of the sub-manager separately.

Each Program (with the exceptions of Asset Advisor and CustomChoice) is a discretionary asset allocation service. Pursuant to an Investment Management Agreement between the Adviser, Wells Fargo Advisors and the client; the client grants Wells Fargo Advisors, subject to the review of the Adviser and Adviser Representative, or Adviser in the case of PIM, discretionary authority to invest and reinvest all assets in the client’s Account under one of the WFA Programs. Such discretion will be exercised in accordance with the client’s goals and objectives, as discussed above. Accordingly, Wells Fargo Advisors or Adviser is empowered to buy, sell or to otherwise effect transactions in securities for the client’s Accounts at any time and without prior consultation with the client and may delegate such authority to sub-managers. Pursuant to the Investment Management Agreement for Masters, DMA, Compass, Network, FundSource and Pathways Accounts, the Adviser will inform Wells Fargo Advisors of any changes to the client’s financial information and investment objectives as provided to the Adviser by the client.

For the PIM, Asset Advisor and CustomChoice Programs, an Adviser Representative acts as portfolio manager for the Account. Asset Advisor and CustomChoice are non-discretionary programs pursuant to which the Adviser, acting through the client’s Adviser Representative, will make investment recommendations based on the client’s information. The Adviser may not implement such recommendations without obtaining the client’s prior approval.

The investment management services provided by WI and/or Wells Fargo Advisors under each Program include:

- Assessment of the client’s investment needs and objectives
- Investment policy planning

- Development of an asset allocation strategy designed to meet the client's objectives
- Recommendations on suitable style allocations
- Identification of appropriate sub-managers, investment vehicles, asset classes and/or securities suitable to the client's goals
- Evaluation of sub-managers, investment vehicles, asset classes and/or securities meeting style and allocation criteria
- Engaging selected sub-managers and/or investing in selected investment vehicles, asset classes and/or securities on behalf of the client (for all Programs except Asset Advisor)
- Ongoing monitoring of performance of individual sub-managers, investment vehicles, asset classes and/or securities
- Review of the Accounts to ensure adherence to policy guidelines and asset allocation
- Recommendations for rebalancing of the Accounts, if necessary
- Reporting of the Accounts' performance and progress
- Avoidance of wash sale rule violations
- Fully integrated back office support systems, including custody, trade execution and confirmation and statement generation through First Clearing Corp., an affiliated broker/dealer of Wells Fargo Advisors.

Wells Fargo Advisors may retain sub-managers to manage the Accounts. In some cases, sub-managers construct a model portfolio which is used to invest client assets. The Adviser will provide the client with a copy of each applicable sub-manager's Part 2A of Form ADV or disclosure brochure. Client's contact source is the Adviser Representative and sub-managers are generally not required to make themselves available to individual clients. The WFA Programs (with the exception of Asset Advisor, which is a non-discretionary program) are intended to comply with Rule 3a-4 under the Investment Company Act of 1940. Rule 3a-4 sets forth certain requirements for programs that offer discretionary portfolio management services to a large number of clients if clients with similar investment objectives receive the same investment advice or hold the same or substantially the same securities in their accounts. Each Account is managed on the basis of the client's individual financial situation. Each client has the opportunity to select the Account's investment objective and impose reasonable restrictions on the management of the assets in the Account. In addition, clients are contacted annually by the Adviser in order to confirm the accuracy of information regarding the client and are notified quarterly by the Adviser to contact the Adviser with any changes to the Account's investment objective or investment restrictions.

Wintrust Navigator Personal Financial Planning

We provide financial planning services that typically involve a variety of advisory services regarding the management of a client's financial resources based upon an analysis of their individual needs. Financial planning services include, but are not limited to, cash flow management, retirement planning, tax planning, risk management, education funding, estate planning, and more. Our financial planning services can range from broad, comprehensive financial planning consisting of three or more of these services that is based on an ongoing relationship or hourly consulting for a specific project.

Comprehensive financial planning involves working one-on-one with us over an extended period of time. The comprehensive financial planning process focuses on the client's goals and values around money. During the process, we require the client to provide an adequate level of information and supporting documentation in order for us to provide advisory services. Once the client's information is

reviewed and analyzed, we create a broad based or modular plan and present the summary of our recommendations to the client. The client is under no obligation to act on our financial planning recommendations, but the success of your plan is contingent on your engagement in the process and following through on the recommendations.

If it is determined the comprehensive financial planning approach is not suitable or does not meet the needs of a particular client, then a limited scope engagement is available. Our hourly rate will apply for any limited scope engagement. For a limited scope engagement, the scope of services will be agreed to in advance and an approximate range of hours will be provided.

Financial planning services include, but are not limited to:

Cash Flow and Debt Management (2-10 hours):

We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.

College Savings (2-10 hours):

Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if applicable, we may review your financial picture as it relates to the best way to contribute to grandchildren.

Employee Benefits Optimization (2-10 hours):

We may provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. This will include a review of the benefits program, identifying savings maximization using the company match, and tracking of additional benefits such as stock options and restricted stock awards.

Business Owner (5-30 hours):

If you are a business owner, we may consider and or recommend the various benefit programs that can be structured to meet both business and personal retirement goals. In addition, we will make recommendations regarding succession planning, disability, and retirement plans for employees.

Estate Planning (5-30 hours):

This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trust.

We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys

who specialize in estate planning when you wish to hire an attorney for such purposes. From time to time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

Financial Goals (5-25 hours):

We will help clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal both in the short term and the long term.

Risk Management (2-10 hours):

A risk management review may include an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).

Investment Analysis (5 – 25 hours):

This may involve developing an asset allocation strategy to meet clients’ financial goals and risk-tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

Retirement Planning (5–30 hours):

Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (i.e., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

Tax Planning Strategies (5–30 hours):

Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation. We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

WFA does not sponsor or advise WI in creating Financial Plans.

Implementation

If a client retains us to implement a financial plan, our advisory personnel also design and construct an investment portfolio that is consistent with the client's financial objectives. As part of this service, the applicable Financial Advisor will recommend specific investments to be included in the client's portfolio. While determined in large measure by the specific client's goals/objectives, our portfolio design philosophy is a process of strategic asset allocation among three asset classes: fixed income, equities and alternative investments.

As part of a financial plan, a Financial Advisor may recommend changes to a client's health, life, disability or long-term care insurance coverage. Clients may elect to implement the insurance advice by purchasing a policy through one of our representatives in such capacity as a licensed insurance agent of various insurance agencies or companies.

Brokerage Execution will be conducted through WFCS with WI as introducing broker. Brokerage commissions may be accessed. Transactional fees are in addition from Financial Planning Fees. See items 11 and 12 for more information on conflicts of interest and brokerage practices.

403(b) Advisory Services

The Program consists of WI providing non-discretionary investment advisory services to individuals using third party custodians for which the client may also pay administrative and custodial fees.

Under the program, the Investment Advisor Representative ("IAR") meets with prospective clients to discuss the benefits of participating in their employer sponsored 403(b) retirement plan. Once they decide to participate, IAR will begin by assessing their retirement goals, along with their risk tolerance. These findings help to determine the best investment strategy and portfolio mix. IAR will then discuss these recommendations with the client and obtain their approval of the investments. IAR will continue to monitor the portfolio, meeting with the client regularly to review their investment goals and risk profile. With client approval, IAR may make changes as necessary.

A portion of the fees or commissions charged for the program described will be paid to the Adviser Representative in connection with the management of accounts as well as for providing client-related services within the program. This compensation may be more or less than the Adviser Representative would receive if compensated by commissions and applicable sales charges as paid by the mutual fund companies in which you are invested.

Unless agreed upon otherwise, you authorize us to deduct a monthly fee calculated at the rate indicated in the Fee Schedule from your account, in advance. For the purposes of calculating program fees, "total account value" shall mean the sum of the long and short market value of all securities and mutual funds, if applicable. In valuing the account, we will use the fund's most current net asset value, as computed by the fund company. In so doing, we will use information provided by quotation services believed to be reliable.

The initial fee is calculated as of the date that the account is accepted into the program and covers the remainder of the calendar quarter. Subsequent fees will be determined for calendar quarter periods and shall be calculated on the value of the account on the last business day of the prior calendar quarter.

No fee adjustment will be made during any fee period for appreciation or depreciation in the value of the assets in your account during that period. Your account will be charged or refunded a prorated quarterly fee on any net additions or net withdrawals in the account during a month. Fees will be assessed in the month following the net addition or net withdrawal. Fees are based on the value of the assets in your Account, and WI shall not be compensated on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of your funds.

Whenever there are changes to the fee schedule, the schedule charges previously in effect shall continue until the next billing cycle.

We may perform advisory services for other clients as well. Depending on circumstances, advice given or actions taken for those clients may differ from the advice given for other clients. In addition, we may, but are not obligated, to purchase or sell or recommend for purchase or sale, any security which we may purchase or sell for our own accounts or for the account of any other client.

Variable Annuity Advisory Services

The Program consists of WI providing investment advisory services to individuals using Variable Annuity Contracts. These are no load, fee based RIA Variable Annuities for which there are no surrender charges and any policy can be liquidated at any time.

We may provide non-discretionary advisory services for the subaccounts within previously purchased variable annuities. With your consent, you authorize us to reallocate subaccounts according to your chosen investment objectives. We will review your stated investment objectives to provide suitable and appropriate recommendations for the management of the assets. Please be aware that withdrawals may cause the subaccount value to fall below the required minimum and may impair the achievement of your stated investment objectives.

The advisory fee paid by you represents compensation for the subaccount management services provided. The fee calculation is based on the contract value of the variable annuity on the last day of each calendar quarter. You may authorize us to process a withdrawal from your Contract to pay the investment advisory fee by signing a Registered Investment Advisory Fee Withdrawal Authorization form.

For Qualified Contracts, withdrawals to pay registered investment advisory fees will not be treated as distributions for tax purposes, and therefore will not be reported on a Form 1099-R.

Our firm and its associated persons may receive additional non-cash compensation from the variable annuity product sponsor. Such compensation may not be tied to the sale of any variable products. Compensation may include such items as gifts valued at less than \$100 annually, an occasional dinner, a ticket to a sporting event, reimbursement in connection with educational meetings, marketing or advertising initiatives. Sponsors may also pay for advisors education or training events.

We may perform advisory services for other clients as well. Depending on circumstances, advice given or actions taken for those clients may differ from the advice given for other clients. In addition, we may, but are not obligated, to purchase or sell or recommend for purchase or sale, any security which we may purchase or sell for our own accounts or for the account of any other client.

WI Institutional Advisory Services

The Program consists of WI providing discretionary investment advisory services to Wintrust Financial Corporation using third party custodians for which the client may also pay brokerage commissions.

Under the Program, (1) the Portfolio Manager completes pertinent financial and demographic information regarding the client in order to develop an investment program that meets the client's goals and objectives; (2) the Portfolio Manager analyzes such information and recommends an appropriate asset allocation and strategy based on the client's goals and objectives, investment time horizon, tolerance for risk and other factors deemed pertinent to the client's individual situation; (3) the Portfolio Manager provides continuous investment management services on a discretionary basis with respect to the cash and securities in the client's accounts ("Account") under the Program.

Pursuant to an Investment Management Agreement between the Adviser and the client; the client grants WI discretionary authority to invest and reinvest all assets in the client's Account. Such discretion will be exercised in accordance with the client's goals and objectives, as discussed above.

The investment advisory services provided by WI under this Program include:

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

WI has adopted a Code of Ethics for all supervised persons of the firm describing its high standard of business conduct, and fiduciary duty to its clients. The Code of Ethics includes provisions relating to the confidentiality of client information, a prohibition on insider trading, a prohibition of rumor mongering, restrictions on the acceptance of significant gifts and the reporting of certain gifts and business entertainment items, and personal securities trading procedures, among other things. All supervised persons must acknowledge the terms of the Code of Ethics annually, or as amended.

WI’s employees and persons associated with the Adviser are required to follow the Code of Ethics. Compliance with the Code of Ethics is a condition of employment. Subject to satisfying this policy and applicable laws, officers, directors and employees of the Adviser and its affiliates may trade for their own accounts in securities which are recommended to and/or purchased for WI’s clients. The Code of Ethics is designed to assure that the personal securities transactions, activities and interests of the employees of the Adviser will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts. Under the Code certain classes of securities have been designated as exempt transactions, based upon a determination that these would materially not interfere with the best interest of the Adviser’s clients. In addition, the Code requires pre-clearance of many transactions, and restricts trading in close proximity to client trading activity. Nonetheless, because the Code of Ethics in some circumstances would permit employees to invest in the same securities as clients, there is a possibility that employees might benefit from market activity by a client in a security held by an employee. Employee trading is continually monitored under the Code of Ethics, and to reasonably prevent conflicts of interest between WI and its clients.

WI anticipates that, in appropriate circumstances, consistent with clients’ investment objectives, it will cause accounts over which the Adviser has management authority to effect, and will recommend to investment advisory clients or prospective clients, the purchase or sale of securities in which the directors, officers, employees and registered persons of the Adviser and its affiliated broker-dealer, WI, may purchase or hold securities that are recommended for purchase or sale to clients. Personal securities transactions by persons associated with the Adviser and WI are subject to the firm’s Code of Ethics, which includes various reporting, disclosure and approval requirements, described in summary

below, in order to prevent actual or potential conflicts of interest with transactions recommended to clients. The Code of Ethics applies not only to transactions by the individual, but also to transactions for accounts in which such person has an interest individually, jointly or as guardian, executor, or trustee or in which such person or the person's spouse, minor children or other dependents residing in the same household have an interest.

In accord with SEC rules relating to recordkeeping by investment advisers and Rule 17j-1 promulgated under the Investment Company Act of 1940, the Adviser and WI require prompt reports of all covered transactions. Each entity further requires that all brokerage account relationships be disclosed, that the entities receive duplicate confirmations of transactions and custodial account statements, and annual certifications of compliance with the Code of Ethics from all covered persons. Transactions in government securities, bank certificates of deposit, and shares of unaffiliated open-end mutual funds are excluded from the reporting requirements.

In addition to reporting and recordkeeping requirements, the Code of Ethics imposes various substantive and procedural restrictions on covered transactions. These include the following:

1. Certain securities transactions must be submitted by "Investment Personnel" (generally, a person who makes decisions regarding the purchase or sale of securities by or on behalf of an advisory client) for pre-approval by the Adviser's Ethics Committee.
2. Purchases or sales by Investment Personnel of securities (other than de minimis trades) are prohibited for a period of seven days before and after an account of an advisory client that the Investment Personnel manages trades in that security.
3. Subscriptions by Investment Personnel to any initial public offering are prohibited.
4. Certain short-term trades of Investment Personnel are subject to review by the Adviser's Ethics Committee, which may require disgorgement of profits. Purchases of certain private placement securities require approval of the Ethics Committee.

As part of its responsibilities, the Adviser's Ethics Committee monitors and verifies compliance of covered persons with the requirement of the Code of Ethics, and reports apparent violations to the Adviser's senior management. Under the Code of Ethics, the Ethics Committee has the authority to require reversal or adjustment of a personal transaction, or the disgorgement of a profit realized on a transaction in personal investment activities and those carried out for clients. The Ethics Committee also may recommend to management the imposition of more severe sanctions, including suspension of personal investing privileges, or termination of employment, in the case of certain types of violations.

Certain affiliated accounts may trade in the same securities with client accounts on an aggregated basis when consistent with WI's obligation of best execution. In such circumstances, the affiliated and client accounts will share commission costs equally and receive securities at a total average price. WI will retain records of the trade order (specifying each participating account) and its allocation, which will be completed prior to the entry of the aggregated order. Completed orders will be allocated as specified in the initial trade order. Partially filled orders will be allocated on a pro rata basis. Any exceptions will be explained on the Order.

WI's clients or prospective clients may request a copy of the firm's Code of Ethics by contacting the WI Compliance Department at 800-621-4477.

Review of Accounts

Clients receive an account statement from their Custodian on no less than a quarterly basis showing all transactions, receipt of sale proceeds, dividend and interest income, and payments for security purchases and other disbursements. Clients may also request a portfolio performance review at any time. The review consists of performance reports that reflect assets held, income for the period, and increases or decreases in the market value of the account. Other information may be provided which lists each of the holdings in an account priced at the close of a specified date, the market value, unit and aggregate cost of each holding, the interest/dividends paid, and yield.

Client Referrals and Other Compensation

From time to time WI enters into agreements, which comply with Rule 206(4)-3 and other requirements of the Investment Advisers Act of 1940, providing for the payment of a portion of the advisory fee to employees of the Adviser or Adviser Affiliates who secure clients for the Adviser. Additionally, the Adviser may enter into agreements with independent contractors or firms not affiliated with the Adviser (“Solicitors”) for the promotion of investment advisory services to qualified prospects. These solicitors may receive a retainer payment and/or a percentage of the fee to be paid to the Adviser as disclosed in the Solicitor’s Agreement. Solicitor payments will not increase the overall fee charged to clients.

Financial Information

Registered investment advisers are required in this Item to provide you with certain financial information or disclosures about the Adviser’s financial condition. WI has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients, and has not been the subject of a bankruptcy proceeding.
